### PROFILE

Hardworking and motivated Computer Science graduate with hands-on experience from internships and project work. Skilled in web development using HTML, CSS, Tailwind CSS, PHP, and Laravel, with practical knowledge of database management using MySQL. Experienced in software testing tools such as Selenium and Katalon, and familiar with version control using Git and local development environments like Laragon. Eager to apply learned knowledge in a full-time developer role. Enjoys learning new things, solving problems, and collaborating with a team to build useful and reliable software.

### PROJECT

#### Anxiety Monitoring System

- Developed a web-based system that uses the K-Nearest Neighbors (KNN) algorithm to predict signs of anxiety in students and employees. Built using PHP (Laravel), Tailwind CSS, and Laragon for local development.

#### Chicken Inventory Management System

- Created a monitoring system for managing chicken inventory in a gamefarm setup. Features include tracking stock, breeds, and health status. Developed with PHP (Laravel), Tailwind CSS, and Laragon.

#### Car Rental System

- Built a simple rental system that manages car availability, bookings, and customer records. Developed using PHP (Laravel), Tailwind CSS, and Laragon for backend and UI development.

#### On-the-Job Training

- Completed OJT as a QA intern at Rameses Systems Inc. in Cebu City.
- Used Selenium and Katalon Studio for automated software testing during internship projects.
